

Anytime & Anywhere Clocking

CAPTURE. EXPORT. PROCESS.

ClockIT – Clock on the go with mobile phone. A walking time clock device that follows anywhere a staff goes, equipped with capabilities to export data for attendance and payroll processing purposes.

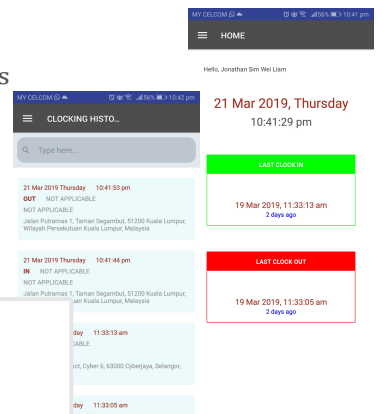

Check-in from any location with location tagging

- Given the login credentials to every employee, employees may clock in and clock out anywhere they go.
- Option to select "project" upon clock-in to support hours by project analysis

Clocking records at a glance

- Constantly showing the latest clock-in and clock-out records
- Historical clocking records are provided and can be retrieved anytime required, complete with the map info

Adjustment, Processing and Reporting Capabilities

- Enforces data originality and integrity, restricts editing of original clock data but enables amendments with justification
- Admin user has real time access to the clocking records.
- Pairing of clock data is enabled to support analysis of total hours clocked, by project and by employee
- Supports fully user definable export format for raw clocking data. Data can be exported to csv or txt format.
- Supports multiple companies and unlimited admin users
